

October 16-17, 2025

**SANFORD
STEM CELL INSTITUTE
SYMPOSIUM**

stemcells.ucsd.edu

UC San Diego
SANFORD STEM CELL INSTITUTE

ABOUT US

We are a global leader in regenerative medicine and hub for stem cell science and innovation on earth and in space. Our aim is to catalyze critical basic research discoveries, translational advances, and clinical progress to deliver novel therapeutics to patients.

WHY SPONSOR

Sponsors of the annual Symposium enjoy exclusive benefits and access to our unique curated audience of thought and key opinion leaders from industry and academia. Attendees and invitees, both virtual and in-person, include Nobel Laureates, biotech and industry leaders, and clinical experts (physicians).

Over two days, our event brings stakeholders from industry and academia together to highlight and discuss breakthroughs in stem cell research and regenerative medicine. We will cover a broad range of topics, including neural stem cells, stem cell development and aging, gene editing, pre-cancer, cancer stem cells, and host interactive discussion panels, providing key insights from our partners from the CIRM's Alpha Clinic Network, and both biotech and space industries.

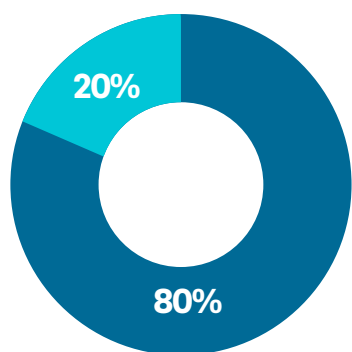

50+ International Speakers
